

## Mercy and Ecological Conversion

Book published in March 2017. With this anthology of texts the four Institutes of Consecrated Life run by the Claretian missionaries want to offer to the English speaking public some of its practical theological reflections.

It is the purpose of this work to approach the change –understood as conversion or as a spiritual paradigm shift (metanoia) - from the point of view of Mercy and of Ecology. Be merciful! Be ecological!

We hope that these reflections also serve as a stimulus to continue the task of “practical theology” of a consecrated life called to be innovative from its extraordinary tradition.
